BLOSSOMS WORKPLAN

We believe that investing in our children's development from the earliest age is the single most important contribution we make ---

Vishwa Bharati Public School recognises the critical importance of early years in a child's life, as this is the time if lying foundation for future growth and development and our objective is to make this experience a joyous one.

The early years of a child's life are golden as most of his brain growth takes place within first six years. children learn to communicate their feelings, thoughts and needs.

Our pre-school curriculum has been modified, evolved and developed over time according to the needs of children. We follow a way of teaching and learning, where the curriculum is connected together and integrated within the theme. It helps our tiny tots to become lifelong learners.

The curriculum is rich and diverse activities where student enhance their social skills through free structured play, develop their gross and fine motor skills through art and craft activities.

This work plan has been designed to serve as a guide for teachers and parents to help them deliver and make our little angles ready for school. The idea is to help these children in skill building, nurturing, responsive relationships so that they become socially and emotionally strong.

The major objectives of the work plan are-

- *To give children play based learning opportunities*
- *To ensure smooth transition to formal school by developing necessary readiness in all curricular areas of learning*
- *To develop the fine/gross muscle and eye-hand co-ordination*
