2	The school has converted regular cubicles into CWSN toilets, but they are very narrow and there is no room for a wheelchair/walker to navigate. The wash basin is not there inside the cubicle. The Cwsn toilets are not seen on every floor. Thus, the school is required to construct the Cwsn toilets separately for boys and girls on each floor with sufficient space for easy movement of the wheelchair as well as handrail on both side of toilet seat (fixed and movable) and proper permanent signage (on the cubicle indicating the floor number) as per norms of RPwD Act and board's guidelines within 03 months and submit the compliance.

Some equipment are seen placed adjacent to side walls which is not appropriate for conduct of practical. All safety features like exhaust fan, fire extinguisher and emergency exit are also not seen in Composite lab and Chemistry lab. Hence the school is directed to upgrade the labs as per SoP issued by the Board and submit the compliance within 3 months.

7	One Transformer is seen within the school campus (ref IC video 0:56). The school is directed to cordon off the transformer to protect reach of the children and submit the videographic compliance within 3 months.
8	The school has provided incorrect EPF registration number. The school is required to provide salary statement and EPF statement for last 3 months.
9	IC has suggested that:- (i) The level of corridor grill on all floors is low as it must be raised up to safety level for the security reasons of the students. (ii) The record keeping like service book, PBR, Attendance register of staff should be well maintained and updated regularly. (iii) More books for senior secondary classes should be procured well in time for Library.
